Create your own story quilt at home!

Throughout history, quilts were created to document important events in people's lives and tell a variety of stories. We want to know something that made you smile during quarantine through creating your own story quilt.

Materials

- Blank piece of paper
- Scrap pieces of paper or fabric
- Colored pencils, crayons, markers, paint
- Scissors
- Glue

Step 1

Think of something that made you smile during quarantine and then write it down on a scrap piece of paper.

Step 2

Draw your idea in the middle of a blank piece of paper.

Step 3

Take your scrap pieces of paper or fabric and cut them into squares or whatever shape you want them to be.

Step 4

Glue the pieces down around the edge of your paper and drawing to create a border.

Step 5

When the glue dries, write down your story in a sentence or two.

Step 6

Take a picture and share on our page what you created. Use the hashtag **#EiteljorgAtHome** and **#MuseumAtHome**.
